

Fluid Investment Group LLC

Technology ventures. Software implementation. Technical operations.

Company overview

A US operating and venture company based in Ocala, Florida. Fluid builds and operates technology products and is available for government contracting and teaming discussions.

Core capabilities

Product and software: Web applications, cross-platform products, interface development and software implementation.

Systems and integration: Authentication, backend services, APIs, subscription integration and deployment.

Technical delivery: Product scoping, release coordination, platform distribution and ongoing operation.

Commercial evidence

Kids Call Home is the flagship venture: parent-managed family calling and messaging across mobile, web and desktop. The Apple App Store identifies Fluid Investment Group LLC as the seller.

Fluid has not yet won a federal government contract. This commercial product work is not represented as federal past performance.
